

# Windows Vista and Windows 7 Compatibility Setting for Money Management Solutions:

Perform these steps to set the access rights so that the backup/restore works properly with Windows Vista and Windows 7:

Click on these items in sequence:

1. Click on Windows Start button, in the bottom left corner.
2. Click on Computer
3. Double-Click on Local Disk (C:)
4. Click on Program Files
5. RIGHT-Click on MMS and select PROPERTIES to bring up the Properties Window  
  
In that windows click on the Security Tab.
6. Click on Users
7. Click on Edit; that brings up the Permissions screen
8. Click on Users in that window
9. Click on Full Control
10. Click on OK
