

Vista Computer Adjustment for Best Performance During Tech Support

Follow these instructions to set your Vista Computer for Tech Support:

1. Go to START > **Control Panel**
2. Double Click **Performance Information & Tools**
3. Select **Adjust Visual Effects** (see top arrow in photo below)
4. Select the button **Adjust for best performance** (see middle arrow in photo below)
5. Select **OK** (see bottom arrow in photo below)
6. Go the website www.MoneyMgmtSolutions.com and follow the instructions the tech support person gives you on the phone

To Return Your Vista Appearance to Its Original Settings:

1. Follow steps 1 through 3 above, then
2. Select **Adjust for best appearance**
3. Select **OK**
